

NC2 - Registration of Name of Horse Foreign Bred (Non-GB/IRE)

Registration Under the Rules of Racing

P.P.

FOR OFFICE USE ONLY

This form is for use by those wishing to register a name of a horse under the Rules of Racing.

An application to name a horse must be made through the Turf Authority of the country where it currently resides.

Named animals - Animals that have already been named in their country of origin before importation into Great Britain must ALSO be named with the British Horseracing Authority. We only require the passport to be sent to us if the horse is unnamed in its country of origin or you require a change of name.

Un-named animals - For foreign bred animals which are un-named. The name you are applying for must be available for registration in both the country of the animals birth and Great Britain or Ireland; as the name must be registered in both countries. Please note there may be additional naming charges from the Studbook or Racing Authority where the animal was born.

THE PASSPORT & MARKINGS DECLARATION MUST ACCOMPANY THIS FORM.

Name availability can be checked at www.britishhorseracing.com/regulation/ownership/horse-name-availability

Guidance Notes On The Completion Of Markings

All markings should be completed by a qualified veterinary surgeon who is not the breeder, owner or trainer of the animal in question.

DO

- **DESCRIBE** in narrative all features drawn on the sketch and **DRAW** all features that you have described.
- ✓ Ensure that all features are **DRAWN FROM ALL PERSPECTIVES** on all of the diagrams.
- Ensure that the position of all features are SUFFICIENTLY DESCRIBED (i.e. head whorls and markings in relation to the mid-line and eye level etc).
- DESCRIBE CREST WHORLS ON BOTH SIDES OF THE NECK (if one or both are not present please state, e.g. "There are no crest whorls on the left side", since the rarity of this event qualifies as an identifying feature).
- ✓ SCAN THE HORSE TO ENSURE A MICROCHIP IS NOT ALREADY PRESENT AND SCAN THE WEATHERBYS MICROCHIP AS FUNCTIONING BEFORE AND AFTER IMPLANTING IT IN THE MID LEFT <u>NECK</u> (NUCHAL LIGAMENT). ATTACH THE BARCODE LABEL TO THE TOP OF THE DOCUMENT AS SHOWN.
- Ensure that you record ALL DISTINGUISHING FEATURES. Hatch white markings in RED, mark whorls with an "X" and prophets thumb marks with a " ". and scars with " ". Include any permanent identifying congenital defects such as parrot mouth etc.

DON'T

- **X_DON'T WRITE IN LOWER CASE** always type description, or print it in block capitals.
- **X_DON'T ABBREVIATE OR USE DITTO MARKS** (") use "right hand side" not R.H.S.
- DON'T USE TECHNICAL TERMS NOT EASILY UNDERSTOOD BY A LAY PERSON (e.g. "caudal") Owners need to be able to identify this horse from your description and, if it is exported, English may not be the first language.
- DON'T USE TERMS SUCH AS STOCKING OR SOCK describe the white in relation to the fetlock, pastern, cannon bone or hock etc.
- ✗_DON'T FORGET TO COMPLETE THE MARKINGS BY SIGNING AND DATING THEM AND GIVING YOUR PRACTICE ADDRESS.

Please note: If the horse can not be adequately identified from your markings in the future it may be prevented from racing or being sold at public auction.
