All mares should have a valid DNA type held on our records. If your mare requires DNA sampling, the appropriate sampling pack will be sent on receipt of this application form and fee. Markings and DNA samples should be taken by a qualified Veterinary Surgeon who is not the owner of, or the agent for the mare. Weatherbys reserve the right to retain a portion of each sample for future reference in parentage verification and identify checks and to ensure the integrity of the General Stud Book.

- If a mare is covered in Great Britain or Ireland but the foal is to be born abroad, the mare will not need to become a registered broodmare with Weatherbys.
- If a mare is to foal abroad, the mare should be registered as a broodmare with the Stud Book Authority of the country in which the foal is born.
- All mares that leave Great Britain or Ireland to travel abroad should have their passports endorsed accordingly, whether the mare foals in Great Britain, Ireland, abroad or not at all.

SECTION E - DEFRA DECLARATION

Under the Equine Passport Regulation it is a requirement to be able to record a declaration as to whether the horse is destined for slaughter for human consumption. Please note that if the previous owner has declared that this horse is not for human consumption, this cannot be changed. (See the Medicinal Treatment pages already in passports for horses foaled since the year 2000).
